RESERVATION TO ARTICLE 10 ADOPTED

Many Democrats Voted With the Republicans on This Test.

WASHINGTON, March 16.—Reserving its disagreement with President Wilson on the dominating issue of the peace treaty controversy, the senate adopted yesterday by a vote of more than two to one the new Article X reservation framed by Republican leaders.

Its action brought to an end, at least for the present, the protracted effort for a compromise that would insure ratification, and the senate's decision was accepted generally as hastening the treaty toward another deadlock from which it could be released only by a verdict at the polls next November.

Fourteen Democrats voted with the United Republican membership for the reservation, but this defection from the administration ranks, fell far short of the number that would be required to ratify. It was considered that others probably would swing over on the ratification roll call, but administration leaders, backed by a definite assurance that the new reservation was unacceptable to the president, evinced no apprehension that their forces would dwindle beyond the danger point.

The vote for adoption, 56 to 26, showed on its face a two-thirds majority for the reservation, but it by no means indicated that two-thirds would vote for ratification on that basis. Included in the majority were irreconcilable holding out a score of votes which, on the ratification roll call, will be cast against the treaty. The reservation adopted after many efforts to modify it had been rolled under by the solidly united Republican majority, following general form the one adopted last November. It is as follows:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country by the employment of its military or naval forces, its resources or any form of economic discrimination, or to interfere in any way in controversies between nations, including controversies relating to territorial integrity or political independence, whether members of the league or not, under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the congress, which, under the constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall, in the exercise of full liberty of action by act or joint resolution so provide."

The roll call on adoption of the Lodge substitute reservation follows: For Adoption. Republicans—Borah, Brandegee, Capper, Clegg, Cullen, Curtis, Dillingham, Edger, Elkins, Fernald, France, Frelinghuysen, Gurnea, Hale, Harding, Jones (Washington), Kellogg, Kenyon, Keyes, Knox, La Follette, Lenroot, Lodge, McCormick, McLean, McNary, Moses, New, Norris, Page, Philpitt, Poindestier, Sherman, Smoot, Spencer, Sterling, Sutherland, Townsend, Wadsworth, Warren and Watson—42.

Democrats—Ashurst, Gerry, Gore,

Henderson, Kendrick, Myers, Nugent, Phelan, Pittman, Pomerene, Reed, Shields, Smith (Georgia), Walsh (Massachusetts)—14. Total 56.

Against Adoption. Republicans—Nona. Democrats—Beckham, Chamberlain, Comer, Culberson, Dial, Glass, Harris, Harrison, Hitchcock, Johnson (South Dakota), Jones (New Mexico), King, Kibb, McKellar, Overman, Owens, Randall, Robinson, Sheppard, Simmons, Smith (Maryland), Stanley, Trammell, Underwood, Walsh (Montana), and Wolcott—36. Railroad Fuel shipments off the Baltimore and Ohio railroad on Mon-

Maine Central showed strength in shipments yesterday, while Wyandotte Terminal leaped up to 18 cars.

to secure the enactment of the said bill introduced by Representative Tillson, of Connecticut, for the repeal of the Lever act."

One of the other matters that was discussed at today's meeting of the association was that relating to Baltimore and Ohio railroad fuel. The association realizes that the B. & O. is plumb up against it for fuel and it went on record today to enlist the assistance of the membership. It is understood that the B. & O. can use 110 to 125 carloads of coal a day.

At today's session Brooks Fleming, Jr., the newly elected president of the association, announced the appointment of these standing committees for the ensuing year:
